

Hms  
2010–2015  
Digital sculpture  
39,4×39,4×9,5 cm

Hms is a digital sculpture.  
A box that rotates at a constant speed around its centre. Its dimensions reflect the current time (in 24-hour format): width, height and depth represent hours, minutes and seconds.  
Twenty-three times a day, for one second each time, the box becomes a perfect cube.

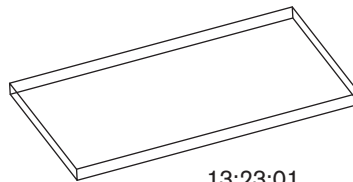

Technical details:  
In this version Hms is presented in a square display. The display has a square aspect ratio and a resolution of 960×960 pixels.  
The program runs on a very small embedded system which doesn't need any care for plugging or unplugging.  
An online version is available here:
